

## Power Switch SC24-400

### High-power adaptor for output ports

#### Short facts

- Switching 3-phase 400 V AC consumers on actuator plugs
- Up to 6 kW power
- With IP44 plug / socket

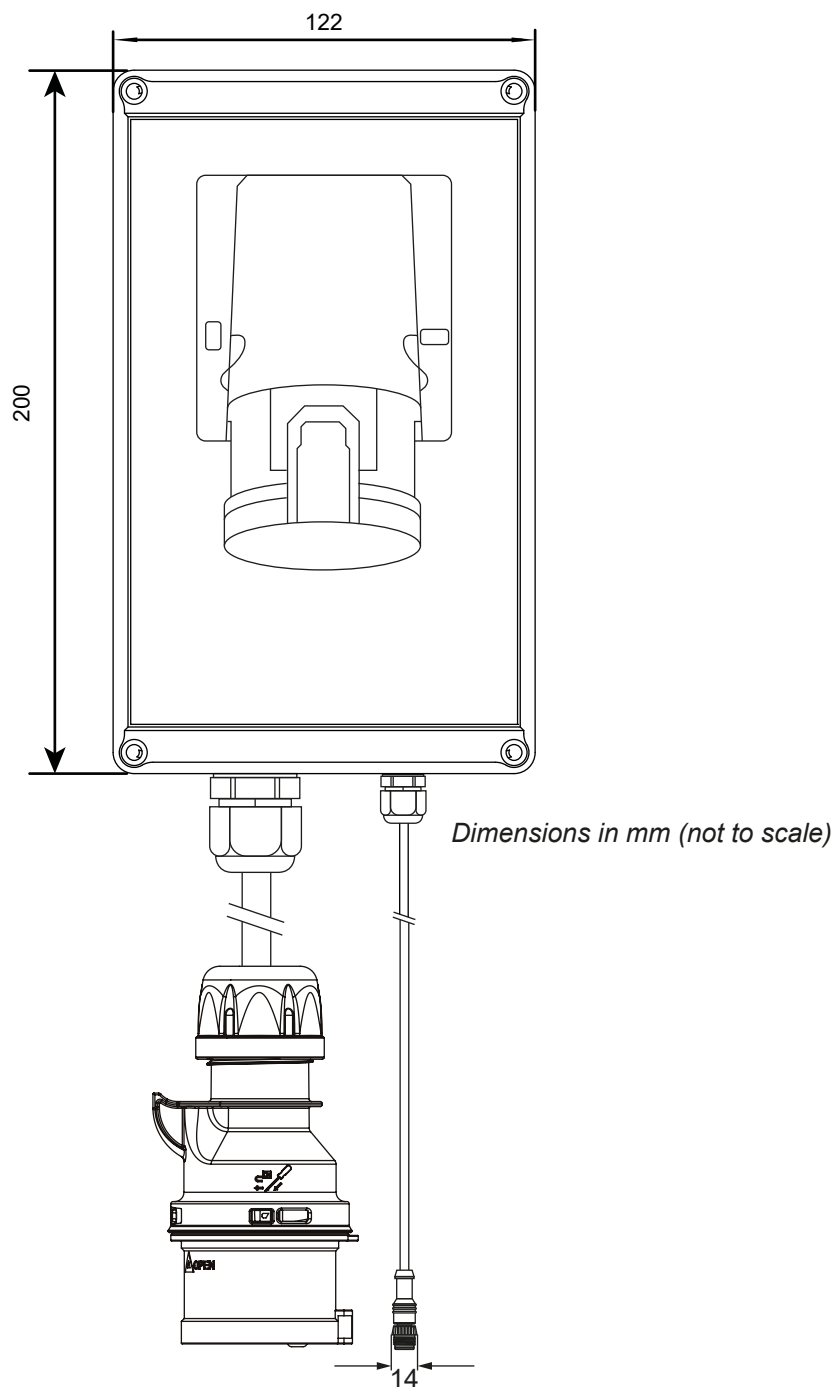

#### **Extending the actuator range: Switching 400 V devices with the Power Switch SC24-400**

The SENECT Power Switch SC24-400 can be used to switch 400 V AC consumers like pumps or aerators with the actuator output ports of the SENECT controllers.

With the Power Switch it is possible to switch for example with the SENECT|ONE an 400 V AC aerator to control the oxygen concentration in ponds.

Technical Informationen	
Dimensions (housing)	200 x 122 x 213 mm
Material (housing)	Polycarbonate
Electrical input connection	400 V CEE 16 A*
Temperature range	0°C to +40°C
Power consumption	< 12 W
Cable length	1 m
Compatibility	with SENECT actuator outputs
Ingress protection	IP 44

\*Please keep in mind, that the Power Switch is just a switching unit and therefore, a proper fusing of the CEE sockets according to the specifications of the consumer and to legal regulations must be made.
